

Listen Up

You can help prevent hearing impairment by protecting yourself in noisy environments.

- ★ **Always wear hearing protection in production areas**

- ★ **Keep an eye on team members and remind them if you see them without hearing protection in loud areas**

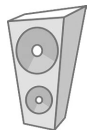

- ★ **Encourage family members to moderate their listening levels when using headphones**

- ★ **Protect your hearing while using lawn and garden tools**

- ★ **Move away from sources of loud noises such as speakers**

Did You Know?

Nearly 50 million Americans experience hearing loss, including one in five teens.
